

## **YES, I would like to donate to the "Tag & Track Project" through CLIC !**

### **Suggested Donor Level of Giving for Project Support:**

- 1) CLIC will be pleased to accept and process, **with gratitude, any financial gift, or series of such gifts**, that anyone (CLIC member or non-member) is prepared to make to the Tag & Track Project. Tax receipts will be issued and mailed, to whichever address you request, without an administrative fee charged to the Project or Donor.
- 2) If you are interested in advancing the T & T Project in a **more directed way**, you may wish to provide funding to purchase some of the much-needed equipment to buildout the underwater infrastructure necessary to track the fish. **If so, consider the gift options listed below:**

**-Batt Level - \$45.00** - (Many of these special batteries will be needed to power the acoustic receivers. The purchase price is \$45.00 each.) (\$62.00 in CDN Funds)

**-Logger Level - \$250.00** - (These subsurface units, which cost \$250.00 each, log water temperature every hour, are deployed at various depths throughout the lake. These will help to determine the thermocline depth at different locations in the lake, which will help in determining summer residency for cold-water fish species.) (\$345.00 CDN Funds)

**-Receiver Level - \$2,700.00** - (These acoustic units are positioned to create the tracking grid which collects and stores the data from the tagged fish.) (\$3,725.00 CDN Funds)

**-Angel Level - \$2,800.00 & above** - (The deployment of such gifts may be designated or undesignated. Undesignated helps with ancillary project costs, including staff wages, gas for trucks and boats, lodging for intensive fall fieldwork, costs to replace ropes, buoys, and anchors, trap-nets, etc.) (\$3,860.00 CDN Funds)

**\* For those who give at the "Receiver" or "Angel" levels**, the principal researchers are prepared to enhance the project experience for those donors. Those details are being worked out.
